Fast Trains Announce New EP and Tour with Turin Brakes

Fast Trains have announced their new EP, *ourWorld Volume 2*, and will join Turin Brakes on their UK tour.

The follow-up to 2021's *ourWorld Volume 1*, the new EP contains 4 songs from Fast Trains' **Tom Wells**, who also engineers and produces the music behind the solo project. A finalist in last year's **UK Songwriting Contest**, Wells' work with Fast Trains has seen him pick up awards for its inventive songwriting and cryptic visual space known as *ourWorld*.

The record was mixed by **Mikko Gordon**, who's recent work with **Arcade Fire** and Radiohead side project **The Smile** has seen him become one of the most sought-after engineers of 2022. The vinyl pressing of *ourWorld Volume 2* sold out on pre-orders alone.

The EP will be self-released on 19th August 2022, and continues the unusual approach of releasing only to YouTube, Bandcamp and the Fast Trains website. To date, no official Fast Trains releases are on Spotify, Apple Music or any other streaming platform.

Wells will be performing solo shows as Fast Trains in September, joining **Turin Brakes** on 8 dates of their UK tour. This follows a string of UK festival appearances and support slots for cult Americana songwriter **Jim White** and Canadian indie rock band **Apollo Ghosts**.

***ourWorld Volume 2*, the new EP by Fast Trains is out on 19th August 2022 from YouTube, Bandcamp and the Fast Trains website. Their UK tour with Turin Brakes takes place across September 2022. Tickets from www.fasttrains.co.uk.**
